STATIC DISSIPATIVE MAIL PROCESSING VACUUM

Static Dissipative .3 Micron HEPA Vacuum, USPS Approved Mail Processing

This small, portable vacuum is ideal for cleaning small Post Offices and for light duty mail processing cleaning. This lightweight dry vacuum features a 4 gallon tank and a HEPA filter before the motor (non-bypassing, 2 stage, 1.3 Horsepower, and 115V). The state of the art HEPA filtration system filters .3 microns and greater. Includes a plastic conductive hose and conductive inlet and suppressor installed in canisters with Electromagnetic Frequency Induction (EFI) and Radio Frequency Interference (RFI). Unit is ETL approved (UL equivalent). Includes a five-year manufacturer warranty that can be serviced at hundreds of factory service centers nationwide. Features a 9" conductive crevice tool, 19" conductive 1/4" wide wand, and a 3" conductive brush with conductive bristles. Also comes with 3 ply dust filtration collection bag and includes a plastic canister bag for disposal purposes. Includes one small filter and a HEPA filter with a bag lock clip to lock your collection dust bag in place. Unit tracks behind user and will not tip over like other upright models because of its three durable casters. Vacuum measures 18 1/4" x 12 1/2" x 15 1/4". Vacuum meets Statically Dissipative USPS Preferred Range.

Specifications: Airflow: 85 CFM Power Cord: 35 ft.
 Water lift: 96 in. Weight: 18 lbs.
 Capacity: 4 gal Filter: .3 micron HEPA
 Sound Level: 65 dB
